The Mountain (Mountain) collection is a collection of in-depth studies on the evolution of contemporary pieces. Today, the customer demands products that reflect his taste, his social status and his trust. It is not a question of trends, but of self-emotional needs. In this context, the Monte Collection was born, a product that expresses the self and conveys the unique business idea of Chinese leaders who always follow the laws of nature. The elegant aesthetics and allegorical meaning of the product build a quiet and peaceful meditative environment for the user, opening his mind to contemplate new markets and opportunities.

蒙特系列融合了中国文化的景观美学，将浪漫主义和人性化的设计思想带入了现代办公空间。在塑造设计时，我们设计了一种当代语言，使用长而弯曲的有机线条将其与现代需求联系起来，以实现技术与设计之间的有机互动。

The Mountain Collection incorporates the landscape aesthetics of Chinese culture, bringing romantic and humanistic design ideas to the modern office space. In shaping the design, we devised a contemporary language that uses long, curved organic lines to connect it to modern needs for an organic interaction between technology and design.

蒙特是由山的英文mountain英译过来，挡板提取了中国山水的元素。

Mountain is translated from English, and the baffle extracts the elements of Chinese landscape.

我们回溯设计历史，回到定义优雅、知性、精致的“艺术与手工艺”时代，用自然、感性得到设计语言将属于Art Noveau（新艺术风格）时代的诗意，将幻想和浪漫带入现代的高管办公空间。

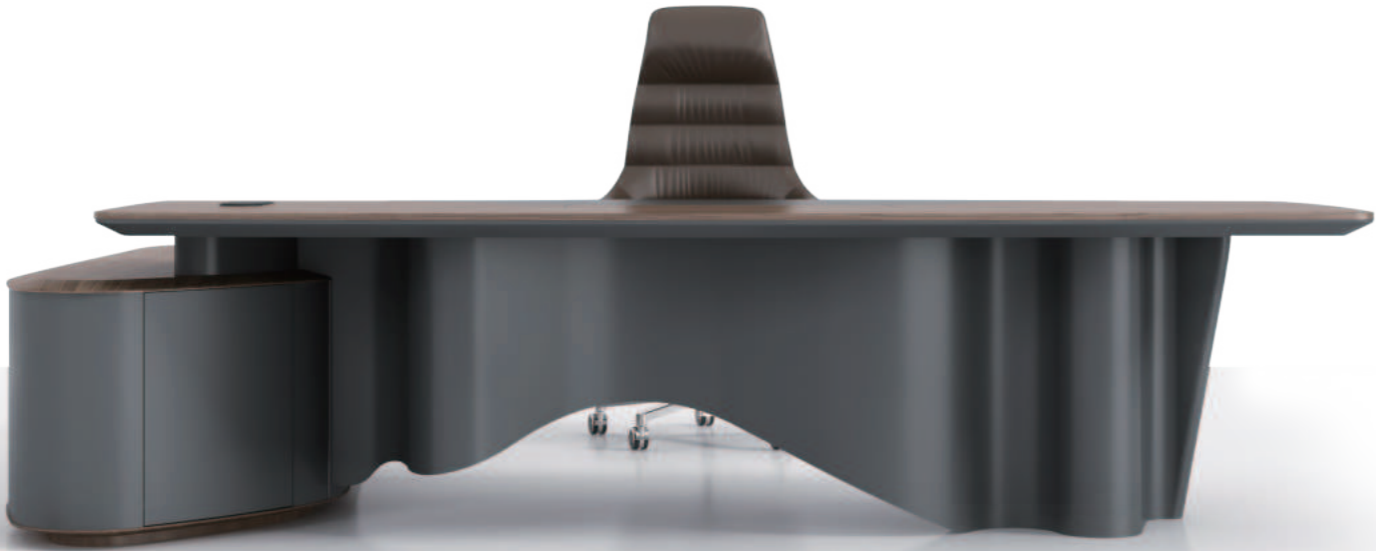

提取中国山水的元素，简约线条,打破了传统的直线式挡板，采用优美的山水曲线作为前挡板设计元素，大大提高了产品的辨识度。

We go back in design history to the "Arts and Crafts" era that defined elegance, sensuality and refinement. We use the natural and sensual design language to bring the poetry of the Art Noveau era into the modern executive office space. We bring the poetry of the Art Noveau era, bringing fantasy and romance to the modern executive office space.

Extracting the elements of Chinese landscape, the simple lines, breaking the traditional straight line baffle, using the beautiful curve of the landscape as the front baffle design elements, is improving to a great extent the recognition of the product.
